Board of Education Status Report

The Board of Education would like to update our Parents, Students, and Community Members on the progress of the hiring process for the Superintendent Position :

- We have received 14 applicants
- We have conducted 6 interviews
- As of March 31, we have invited 3 candidates to participate in a final round of interviews which will be conducted on April 5. Our intention is to hire our new Superintendent within a time frame that would allow them to participate in the interview process for the newly posted position of High School Principal.
- Additionally, we are diligently and carefully conducting a thorough investigation and reviewing each candidate's credentials, employment history, personal/professional background, references, experience, etc.

We thank each candidate for their interest in our incredible school district and we look forward to welcoming a new Superintendent to continue our tradition of excellence!
